**Fostering Civic  
Engagement for  
Green Track**

**Press Release n° 1**  
August 2023

**CIVIC  
GREEN**

**Co-funded by  
the European Union**

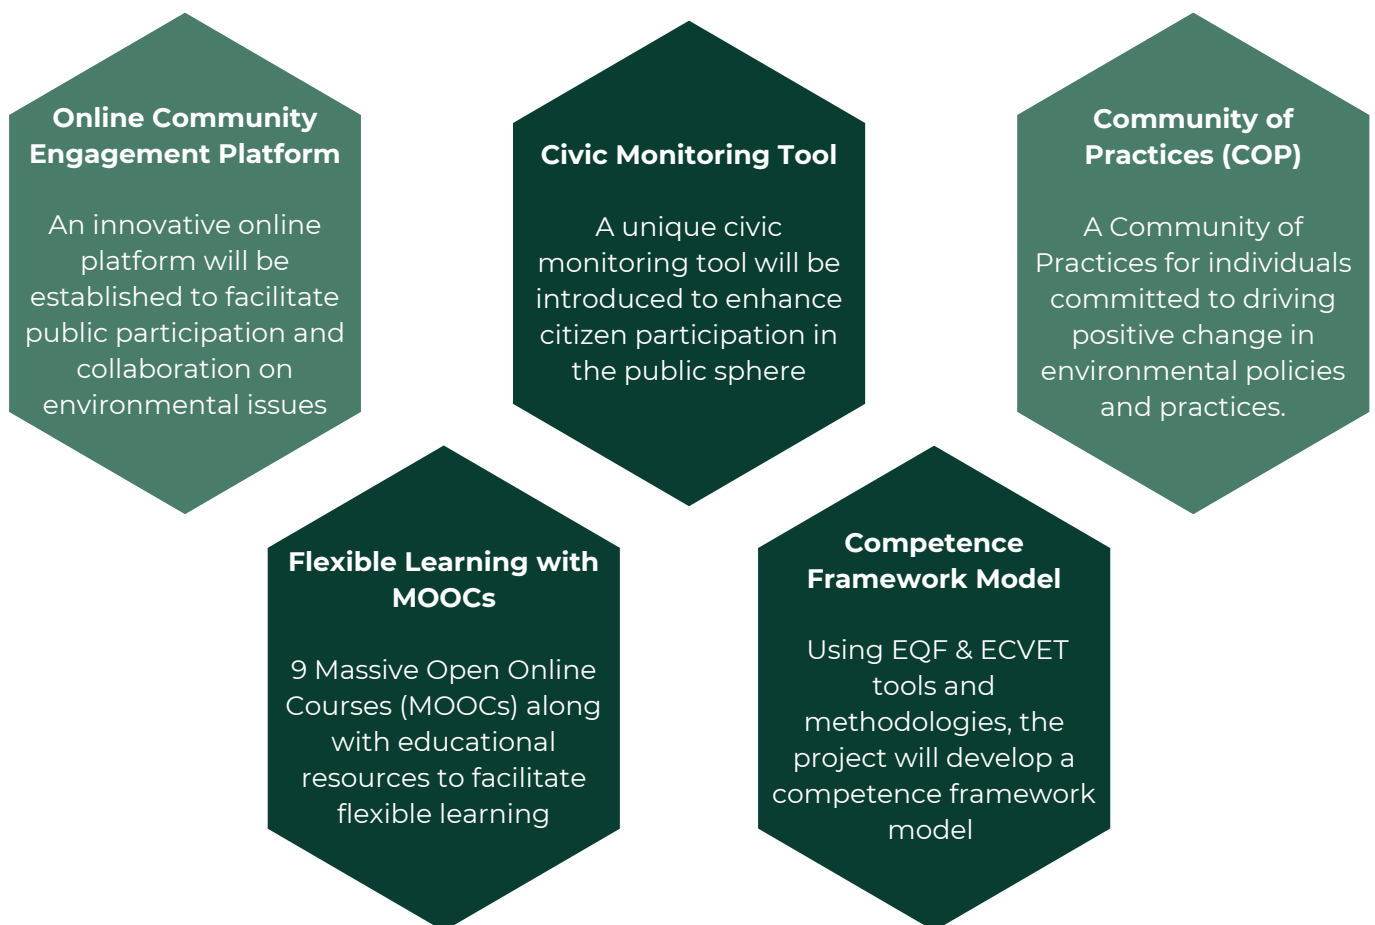

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

## CIVIC GREEN Project Launches to Foster Active Citizenship and Environmental Awareness Across Europe

The CIVIC GREEN project, funded by the ERASMUS+ program, has as its ultimate goal to empower European citizens, public institutions, and educators in promoting active citizenship and addressing critical environmental challenges. This collaborative effort aims to enhance civic and democratic engagement while equipping individuals with the knowledge and tools needed to contribute to a more sustainable future.

The CIVIC GREEN project seeks to elevate awareness of environmental issues and promote effective action within communities. By using the power of education, technology, and collaboration, the project aims to make a tangible impact on the environment while strengthening the fabric of European society.

### Key deliverables of the CIVIC GREEN project

# Civic Green Progress

---

Since its inception, the CIVIC GREEN project has achieved notable milestones. The kick-off meeting, held on November 30, 2022, in Verviers, Belgium, set the groundwork for project deliverables, responsibilities, and timelines. A subsequent project partners' meeting on May 25, 2023, in Madrid, Spain, saw advancements in the development of the competence framework and the CIVIC GREEN MOOC. Additionally, discussions revolved around shaping the Civic Green Citizen Lab and Community of Practice for future tasks.

Emphasizing an innovative approach, the CIVIC GREEN project places the power of action into the hands of citizens, providing them with the knowledge, methodologies, and tools needed to make meaningful contributions toward climate change mitigation and sustainable development.
